Java Full Stack Intern

Nagpur, MH, India

- Teaching Assistant
- Resolved doubts and provided guidance on various topics related to Frontend, Backend and Database Technologies like **Java, Python, HTML, CSS, JavaScript, React, SQL**, etc.
- Guided graduate & undergraduate students in their technical development, leading to significant positive impacts on their growth and learning.

Projects

Sales Savvy / Java, ReactJS + Vite, MySQL, HTML, CSS / [Source Code](#)

- The Sales Savvy Full Stack application is an e-commerce platform that allows users to browse products, add them to cart, and complete purchases. It consists of a frontend, backend, and a database, working together to provide a seamless user experience.
- It uses various React modules and Components.

TaskBuddy / ReactJS, CSS / [Source Code](#)

- TaskBuddy is a React-based task management application designed to organize tasks into three categories – To-Do, Ongoing, and Completed. It demonstrates core React concepts like state management, component structure, and user experience.

Portfolio / HTML, CSS, JavaScript / [Source Code](#) | [Live](#)

- I have built a portfolio website using HTML, CSS and JavaScript to showcase my skills, projects, and professional journey. This website serves as an interactive resume and personal brand, allowing potential employers and clients to learn more about me.
